WILD and NATURAL

Australian natives are the toughest botanicals on the planet. They are powerhouses of natural actives needed to combat extreme, unpredictable conditions. With an evolution of millions of years, Australian species are naturally designed to give your hair a fighting chance against dehydration, high temperatures, UVA and UVB exposure and more.

Need your hair to survive a hard day - we have selected native Australian extracts that can stand up to the challenge - protecting your hair from the environment the way nature has designed.

Finger Lime Fruit Extract *Citrus australasica*

What it is?

This strange and unique citrus calls the rainforests along the coastal border region of Queensland and New South Wales, Australia home.

Why we love it – your “go to” for RESCUE and REPAIR

Packed with tiny caviar pearls that explode with powerful antioxidants and anti-inflammatory actives like natural Vit C, Tryptophan, and Ferulic acid. We love how it feeds your scalp where your hairs journey starts – combating UVA/B damage, boosting hydration and condition as well as supporting damage reversal, for hair that needs a little extra TLC.

Quandong Fruit Extract *Santalum acuminatum*

What it is?

The Quandong is a strange, red, glossy Australian desert fruit, eaten by Indigenous people for centuries for its potent health benefits. Found wild throughout the deserts, and semi-arid areas of Southern Australia.

Why we love it – your PLANT powerhouse

This little fruit is a powerhouse! Nourishes UV damaged hair, amping up its condition and comb-ability and promoting growth. You beauty!
